1. GENERAL PRODUCT INFORMATION

Skin problems are on the rise. Skin irritations and redness have become common symptoms.

Nahrin Aloe Vera Skin Spray is a moisturising spray with finest aloe vera, cardiospermum and hyaluronic acid. The formulation effectively soothes and invigorates irritated skin that is prone to itching. Aloe Vera Skin Spray refreshes and cools the skin, which makes it perfectly suitable for use after sunbathing.

First aid on the skin:

- for insect bites
- for itching skin
- for irritated skin
- after shaving / waxing
- for women: especially for sensitive skin parts as bikini area or under the armpits
- for men: spray into the hands, apply onto the face and gently press into the skin - as an After Shave
- for minor burns / sun burns

Further application:

- Refreshes the skin when used throughout the day: for a beautiful, radiant complexion
- For heavy legs: cooling and refreshing effect
- Helps hydrate in air conditioned, or over-heated offices, car or plane
- In the heat of summer or after sauna - preferably from the fridge
- After sun bathing: soothing and cooling effect

2. USPs

- First aid for various skin problems
- Without fragrance

3. ACTIVE INGREDIENTS

3.1 ALOE VERA BARBADENSIS LEAVE JUICE

ALOE BARBADENSIS LEAF JUICE

- Regulates the moisture balance of the skin and pampers your skin with humidity
- Improves blood circulation in the skin

- Regenerating
- Calming
- Reduces irritations
- Refreshing
- Calms the skin after a sun burn
- Wound healing
- Rich in polysaccharides, vitamins, minerals, amino-acids and enzymes

→ all these substances are essential for the human body

3.2 HYALURONIC ACID

SODIUM HYALURONATE

Hyaluronic acid is naturally present in most of the cells of our body, 50% in the skin. The young skin is smooth and elastic and contains high quantities of hyaluronic acid. This helps to maintain the firmness and elasticity by encapsulating the moisture within the skin. With the age, however, the capacity to produce hyaluronic acid is reduced.

- Supports the cell regeneration
- Skin firming effect
- Good anti-ageing effect
- Increases the self-defense of the skin
- Smoothing and strengthening
- In the skin it develops its moisture binding capacities

3.3 BALLON PLANT

CARDIOSPERMUM HALICACABUM FLOWER/LEAF/VINE EXTRACT

The balloon plant is mainly used in homeopathy as it has an effect similar to cortisone and is therefore anti-inflammatory. The main effect of the balloon plant originates from the polysterols which are of great help to treat all type of skin problems.

- Calms irritations
- Ideal for problematic skin (eczema and psoriasis)
- Anti-inflammatory
- Antimicrobial
- Caring

4. USE

- Simply spray on affected skin areas and let penetrate.

5. PRESENTATION POSSIBILITIES

- Spray a little bit on the hand

Or

- Spray a little bit on a Kleenex and pass it around to smell
